

Sustainable lighting solutions.

Solar Powered LED Street and Area Lighting.

**A WELL LIT
PASSION**

Light creates, highlights, delineates and illuminates — it breathes new life.

VISION

Mondoluce's vision is to provide quality, reliability and value through products and services we offer to all our clients. We share the passion to make light work with those who understand the significant role lighting plays in our built environment from an aesthetic, creative, innovative, sustainable and functional perspective. We strive to nurture long standing professional working relationships and in the process to be the best and most respected lighting provider.

SERVICES

The products we offer are at the forefront of global design, innovation and manufacture.

We passionately strive to be the best by offering outstanding support to our clients across the entire spectrum of our services. When a design or architectural solution is required, form becomes a key factor in our decision-making.

When a commercial solution is called for, we seek to provide functional solutions that meet the specific usage requirements of our client. Mondoluce's focus is generating solutions that match form and function, without compromise.

LIGHTING APPLICATION AND DESIGN

Our product and technical support commences from the initial concept and design stage through to commissioning, installation and troubleshooting.

The seamless transition of service provision throughout the various stages of our supply process is a key feature of our business.

SPONSORSHIPS

Mondoluce is a strong advocate of good design practice. This is appropriately demonstrated through the long-standing relationships we nurture with the local chapters of key design industry groups such as:

THE AUSTRALIAN INSTITUTE OF ARCHITECTS (WA CHAPTER)

THE AUSTRALIAN INSTITUTE OF LANDSCAPE ARCHITECTS (WA CHAPTER)

THE DESIGN INSTITUTE OF AUSTRALIA (DIA - WA CHAPTER)

THE ILLUMINATING ENGINEERING SOCIETY OF AUSTRALIA & NEW ZEALAND (WA CHAPTER)

OPEN HOUSE PERTH

RELATIONSHIPS

Our business is founded on long standing relationships and strong partnerships.

We intentionally nurture these relationships and collaborate with a spectrum of key decision makers from design disciplines, trade professionals and industry bodies.

We share the passion to make light work with those who understand the significant role lighting plays from an aesthetic and functional perspective.

COMPLETE DESIGN AND SYSTEMS OPERATION

Metalight can deliver your project from design to installation. We utilise structural and lighting engineers to map out a light plan and certify the structure of all custom poles for wind loading, providing you with the ideal lighting solution to suit your application.

DESIGN PROCEDURES

1. Brief from the client i.e car park, right of ways, parks and recreation areas.
2. Site appraisal i.e Trees, obstructions
3. Perform a lighting design in accordance with relevant Australian Standards.
3. Complete package as per application. LED luminaire, battery and solar pole.

FEATURES & BENEFITS

LONG STANDING GUARANTEE

- Peace of mind
- 5 year system warranty
- Satisfies relevant Australian Standards.

LED LIGHTING FIXTURE

- Minimal maintenance
- No costly lamp replacements
- Long lamp life
- Energy efficient and saving
- Brilliant white light perfect for safety and security needs
- Instant lighting.

SOLAR POWERED LIGHTING SYSTEM

- Fast & easy to install
- Reliability—dusk to dawn operation
- Operates through power failures
- System design to suit application

APPLICATIONS

- Car Parks
- Highway Emergency Tel.
- Jetty Lighting
- Parks & Gardens
- Pathways
- Pedestrian Walkways
- Prisons
- Right of Ways
- Schools
- Security
- Street Lighting
- Temp. Light Towers

ENVIRONMENTALLY FRIENDLY

-  Use Less Energy
-  Eliminate Hazardous Materials
-  Reduce, Reuse, Recycle
-  Control Light Pollution
-  Lower Greenhouse Emissions
-  Less Landfill Waste

Installing Mains Powered Street, Security and Park lighting can be an expensive business with trenching, cabling, resurfacing and the risk of damaging existing underground services.

Consider Solar Powered Lighting.

Our focus at Metalight is to build on the sound reputation of the brands we represent, and deliver effective and innovative lighting solutions through our passionate staff.

Representing key brands such as Cree LED Outdoor Lighting, Wadco, Ruud Lighting, and Prahct. Metalight offers the latest and best lighting solutions for you next project.

Have confidence knowing your lighting is in the hands of specialists.
